

The screenshots below provide guidance on the completion of our SBA PPP online loan application for applicants who will submit an application for a partnership or an LLC that files taxes as a partnership.

Due to Limitations within our SBA PPP Online Application, the loan amount will not be calculated correctly for partnership applications. Please enter the information from the spreadsheet on the indicated fields within the online application.

AAC will adjust your loan amount in the online application, prior to submission to SBA, to match the amount documented within the spreadsheet calculator you provide.

SBA - Pavcheck Protection Program Partnership Calculator

For Partnerships or LLCs that file form 1065 Tax Return, this calculator** is intended to support the applicant and/or representative in the completion of the SBA-PPP loan application. Enter information into cells that are shaded yellow (when applicable) to complete the loan calculator. If a yellow cell does not apply, please leave blank.

Due to SBA requirements, supporting documentation is required to complete a SBA-PPP loan application. The supporting documentation must adequately and clearly support and identify (e.g. highlight, circle, etc.) the data entered into the yellow fields on this worksheet and the corresponding application cells. Lack of adequate or clear documentation will slow, or in some cases, prevent the processing of your SBA-PPP loan application.
